ZOEDONE
Ohne Phosphor kein Gedanke
ZOEDONE
THE NEW DRINK
A restoring & stimulating but non-alcoholic
BEVERAGE
Letter from Dr Lucas, Bombay, Medical Dept. Author of the Elements of Indian Hygiene etc.
"I am of opinion that your invaluable aerated beverage Zoedone deserves the highest attention at the hands of the Indian public. It is not only a health giving drink but essentially, containing as it does the quadruple phosphates of Iron, Lime, Potash, and Soda, a health restoring drink par excellence, reviving and refreshing the vital powers. It would be a blessing indeed if we could see it introduced into hotels, restaurants, regimental messes and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indication as a remedial and dietetic agent in cases of malarial cachexy, phithis etc."
Letter from Geo. S. A. Ranking, M.A. M.D., Cantabe Surgeon, Indian Medical Department.
"I am of opinion that in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the Medical profession in India, viz., the discovery of a beverage which shall assuage thirst, restore nervous waste, and while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India it will meet the requirements of those who wish to restore their nervous system without impairing their liver."

Good News for Sheep Farmers
The well-known Veterinary Surgeon
Mr Robert Hall, M.R.C.V.S
Inventor and Sole Manufacturer of the popular
HALL'S SHEEP DIP
Having determined to introduce this valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his Agents for the River Plate.
This Dip is preferred to all others in Australia and New Zealand, where it has successfully stood a competitive trial for many years. The Inventor claims for this Dip the following advantages—
1st—It is instantly and completely soluble in either warm or cold water.
2nd—It is non-poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.
3rd—It is a certain preventive, and perfect cure for SCAB.
4th—It most effectually destroys Red Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Cattle.
5th—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.
6th—The Dip is invaluable for protecting the Sheep from the attacks of Flies and Maggots.
This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.
Important
This Dip is guaranteed to be manufactured only by the Inventor in England, and is of course very superior to the many Dips made in this country.

ITALIAN FORCED CURRENCY MEASURE.

The Italian Government is engaged in precisely the same effort as the Argentine to abolish forced currency, and for that purpose the Italian Government has just launched a loan in England, nominally for 27 millions sterling, but only 14 millions of which is at present offered to the public at 90. There is such a great similarity between the efforts of both Governments to abolish forced currency and resume specie payments, that possibly the Italians may show us a way out of a difficulty which apparently defeats our Banks, our Governments and our public men. The *Economist*, perhaps the highest finance authority in England, gives the following explanation of the Italian effort. We commend the paper to the attentive reading of our On 'Change German Correspondent:—

Now that Italy, by the issue of the new loan, has commenced to carry out her scheme for the resumption of specie payments, it may be of advantage to state briefly the nature and extent of the financial operations in which she is about to engage. The forced paper currency of Italy now to be dealt with is of two kinds. One portion of it consists of notes issued on behalf of the State by what is called a 'consortium,' or combination of banks. This issue was commenced in 1866, and it increased from £10,000,000 at the close of that year to £37,600,000 in 1876, since when it has been stationary. The other portion of the paper currency is composed of notes issued by six banks, which, like the State notes, have a forced currency, but for which the banks themselves, and not the Government, are responsible. The movements in this portion of the paper money, as well as the growth in the total amount of the note circulation since a forced currency was given to it, will be seen from the following table:—

	State Issue	Banks' Circulation	Total Circulat.
December	£	£	£
1866....	10,000,000	9,837,000	19,837,000
1867....	10,000,000	19,480,000	29,480,000
1868....	11,120,000	22,524,000	33,644,000
1869....	11,120,000	23,826,000	33,946,000
1870....	17,800,000	19,898,000	37,698,000
1871....	25,151,000	23,102,000	48,263,000
1872....	29,600,000	24,935,000	54,535,000
1873....	31,600,000	26,573,000	58,173,000
1874....	35,200,000	25,329,000	60,529,000
1875....	37,600,000	24,850,000	62,450,000
1876....	37,600,000	25,841,000	63,441,000
1877....	37,600,000	25,142,060	62,742,000
1878....	37,600,000	26,891,000	64,491,000
1879....	37,600,000	29,298,000	66,898,000
September			
1880....	37,600,000	28,898,000	66,598,000

It was originally intended that the forced currency of the notes issued by the banks on their own account should have ceased at the close of last year. By the Resumption Act, however, it has been prolonged until the 31st of December, 1883, after which date the notes will be payable in coin on demand. At present the six banks have a specie reserve of £5,300,000, of which about £2,700,000 is in gold, and the remainder in silver. But this, though adequate for their present requirements, is too narrow a cash basis to support their large circulation when its forced currency is withdrawn, and we must expect, therefore, that in addition to the Government demands for gold for resumption purposes, some purchases will be made on behalf of the banks. This latter buying, however, need not be very large, and, spread over two and a-half years, is not likely to be much, if at all, felt. In considering the prospects of resumption, therefore, the bank circulation may, for nearly all practical purposes, be left out of account. It will not at all interfere with the action of the Government, and the banks may safely be trusted to take whatever steps are necessary to ensure the ultimate convertibility of their notes.

It is, therefore, only to the measures to be taken with respect to the State issues that we need now look. This portion of the circulation is on the 1st of July next to be taken altogether out of the hands of the banks. From that date it will become in name, as it is now in fact, State paper, and, at dates to be subsequently fixed by Royal decrees, it will be made payable in cash at all the Royal Treasuries. It is to provide for retirement of the bulk of this portion of the circulation that the preseat loan of £25,760,000 has been negotiated, and the whole of the amount raised, less a sum of £1,760,000 due by the Treasury to the National Bank, will be applied to the redemption of the outstanding notes. Accordingly, by the end of 1882, the amount of the State issue will be reduced from the present total of £37,600,000 to £13,600,000., and the expectation is that by this large reduction in the amount of the currency the value of the portion left in circulation will be raised up to a level with gold and the convertibility of the notes established. And there is every reason to believe that this expectation will be realised. Indeed, the mere initiation of the resumption scheme has almost sufficed to remove the depreciation of the paper money. Some months ago we showed, by a comparison of the Paris and Italian exchanges, what the amount of that depreciation was and how it had fluctuated in recent years. The Italian lire being of the same nominal value as the French franc, the London exchange on Paris and Italy should, broadly speaking, be on a par. Owing, however, to the debasement of the Italian paper currency, the rate on Paris has always in recent years been lower than that on the Italian centres, the difference between the two being a rough measure of the depreciation of the Italian circulation. Continuing this table, we find that the notes have now approximated very closely to each other,

Thus, by the mere expectation of resumption the value of the Italian paper money has been lifted up almost to par, and there seems no reason to doubt that as soon as action is taken to redeem the notes, thus correcting the redundancy, to which their depreciation is due, their value will be placed on an equality with gold. And as we have seen in the case of France and the United States, when the real value of a paper currency has been made to correspond with its nominal value, the actual resumption of specie payments is effected without difficulty or disturbance. The transition is so easy as to be almost imperceptible. It will, of course, be necessary for the Italian Government to possess at the time of resumption a stock of specie sufficient to give confidence in the perfect convertibility of the 13½ millions of notes left outstanding. Already, however, it has the nucleus of such a fund, since there is at present in the Treasury nearly three millions of gold and silver coin, and if it continues as now to realise in its budgets a surplus of revenue over expenditure, the small additional amount needed to constitute an adequate specie reserve will doubtless be provided.

From the purely financial standpoint, therefore, we see no cause to doubt that the resumption scheme will be carried through successfully. In the present heated state of the political atmosphere, it is, of course, possible that something may happen to upset all calculations. If, for instance, Italy were to be drawn into war, instead of the paper currency being redeemed, its amount would certainly be largely increased and the day of resumption indefinitely postponed. Or the success of a resumption might be seriously imperilled if Italy, under the impulse of national jealousy or pique, were to launch out into a largely increased military expenditure. But such unforeseen contingencies apart, the plan of resumption is thoroughly practicable. The difficulty that we see is not in the attainment of resumption so much as in its maintenance after it has been attained. It is to be inferred from the fact that not less than £16,000,000 of the new loan is to be paid in gold that the attempt is to be made to rest the currency to a large extent upon a gold basis. There is, however, to be a large coinage of silver, The whole of the fractional paper currency—that is for notes of 5 francs and under—which, according to the latest returns, amounts to about £12,606,000, is to be withdrawn, and to a large extent replaced by silver; and as yet there is nothing to show that the silver as well as the gold currency is not to be made an unlimited legal tender. And if this bimetallic system is sought to be established whilst silver remains depreciated, there is serious risk of Italy being rapidly drained of the gold which she is now endeavour-

ing at considerable cost to obtain. This, however, is a point upon which the uncertainty which prevails as to the future of silver, and while the intentions of the Italian Government are not fully disclosed, it is impossible to speak with any confidence. The three things which it is desirable now to note are, first, that a reasonable scheme of resumption has been propounded, and is likely to be carried out with success; second, that the benefits which would accrue to Italy from the establishment of her currency on a specie basis will assuredly far more than compensate for the additional burden imposed upon her by the new loan; and thirdly, that for reasons which we set out in detail a fortnight ago, there is, so far as can at present be seen, little cause to fear that the absorption of gold by Italy will, notwithstanding the scarcity of the metal, cause any material pressure or disturbance in the money markets of the world,

NATIONAL COLONIES.

We willingly publish the following letter from Mr John Dillon, ex-Chief Commissioner of Immigration. Immigration is the question of the day, far more than any other, and everything connected with it is of vital importance. The acknowledged shortcomings in our Immigration system cannot fairly be laid at Mr Dillon's door, as he really did wonders with the utterly inadequate means placed at his disposal by Congress, with which the blame mainly lies, for not having long ere this given the country a sound, practical Homestead Law, and other measures calculated to attract Europeans to this country. The political disturbances last year may also fairly be charged with a considerable proportion of the chaos now existing in our Immigration affairs.

B. Aires, Aug. 8th.

To the Editor of the *Standard*

Dear Sir

In your article on Colonization of Buenos Aires yesterday, you state 'the signal failure of so many National colonies, etc.'

The National colonies are such as I described them in my report of 1879 and in that published in the *Tribuna Nacional* in 1880, when I handed over their administration. The colonists live without any necessity of help, and as well as any settlers in private colonies of the same years. You have seen the Colony of Esperanza, which may be called the mother of the remainder, you know its actual condition and its history of five years' hard struggle, and you also know the Candelaria colony of Mr Casado, its varying fortunes, and that 800,000 $f. were spent on it. Remember how much Thompson Bonar spent in the colony Alejandra, and what great difficulties had to be overcome, the same as in the Central Colonies.

You may thus perceive that to create and forms colonies is not as easy as to blow bottles; and the difficulties are enhanced with the number; nevertheless they have been planted on sound foundations, although, with the exception of Chu but, they hardly average an existence of four or five years.

The colonies are:—

Chuput, the prosperity of which is well known.

Villa Libertad, that since two years receives no support, and if it has not paid off one-fifth of its debts this year, it is because same has not been collected.

General Alvear (Russians): the colonists petition for more land, in order to accommodate their families from Russia.

President Avellaneda, in the Chaco, a model of good management, and whose Comisario was sent by my orders especially, in April 1880, in order to put the other colonies on a similar footing.

Resistencia, also in the Chaco, needs no support, and the Comisario states that all the settlers are able to pay.

Formosa, also in the Chaco, and remotest colony, had to meet many drawbacks and needed support, but the colony is prosperous now.

The settlers on the last three colonies earnestly request that their families be brought from Europe, and such a request would not be likely if they did not thrive.

Sampacho, on the Andine Railway, prospers and needs no protection.

Caroya is in a thriving condition: it is situated in the province of Cordoba.

There remain finally Reconquista, Iriondo and Olavarria, which although provincial colonies, owe their success in part to national management.

There has, therefore, been no signal failure as you state: the only attempt that collapsed was the San Javier, and as regards the Santa Cruz, its colonization was never carried on in earnest: this accounts for its want of success.

As regards results, the three above-mentioned Chaco colonies have given rise to three others of a private character, not to mention the many other enterprises daily recorded by the newspapers. These are all results of those colonies and of their success.

There were defects in the domestic management, no doubt, which were being gradually corrected, without any need of bringing them before the public, since otherwise the loss would have been heavier than the gain; but, I repeat, the colony Libertad was able to pay on the strength of the last harvest 20,000 $f. of its debt, and the other colonies will be in a condition to do the same next harvest, unless some unforeseen calamity should check their present prosperity.

I remain

Yours, etc.

Juan Dillon.

SAFE TRIAL.

LATEST FROM THE BOCA.

August 17.

This morning the enterprising firm of Messrs. Felipe Schwartz and Co. submitted to the test one of the iron safes made at their premises, under the superintendence of Mr. Gustav Bash, brother of the well-known Scotch firm of Bash and Co., Glasgow.

These safes vary in price from $1500 to $18,000 m|c., and as regards quality and style of finish leave nothing to be desired.

One of the aforesaid safes particularly struck my fancy. If anyone coincides with my ideas, he has nothing more to do than to take a $2 m|c tramway to the Casa Amarilla and buy it. The price, if I remember right, is $6,500 m|c.

The safe in question is 'de gran tamaño,' and combines all the necessary conveniences for documents and spare cash, and besides forms an 'escritoire' with a comfortable desk for writing out cheques &c. The contrivance is neat in the extreme.

All the safes have an inner lining of patent fire-proof steam generating composition, which perfectly guards against over-heating.

I had the pleasure of seeing a large double safe, (Bank safe) under construction.

The advantage these safes have over the generality is that in case of a burglary, owing to patent hooks, burglars are incapacitated from forcing the door plate from lock-case.

The lock-plate has a patent front studded with steel pins, which defies to be 'bored.' One was placed to the test, under a boring machine of 6 tons weight, and most satisfactory was the trial.

The entire machinery of these safes works by the turning of one handle.

The safe, put to the test, was placed on a diminutive trolly, about 2 ft. high, and wheeled into the midst of a burning, fiery furnace about 9 a.m. At 10 a.m. the massive brass plate and handle were completely melted off.

At 2 p.m. the safe was opened, after 5 hours exposure to a 'too' terribly hot fire, and paper money, documents, and a hard-baked egg were taken out. The money and documents were in the best of order, and the egg was just 'o. k.' for a salad.

I am the happy possessor of a twenty dollar 'papel' which stood the test.

Any gentleman wishing to see the same, can see it at the *Standard* office.

In my poor opinion, these Safes are infinitely superior to any yet invented, and I should advise any person in want of said article to pay Messrs Schwartz & Co, an early visit.

I noticed on their extensive premises two iron steamers under construction. One for the Nat. Government, and the other a light-draught boat for Rio Bermejo navigation.

The former is fitted with De Bay's patent propeller, the latter is made in sections.

In the shop, paved with the asphalte pavement from the Calle Florida, we find four or five mills under construction, a machine for cleaning wheat, a large casting shaft for the Santa Rosa (Patagonian steamer), the cylinder for the Bermejo boat, as also machinery for breaking the fibres of the 'lino.'

Two hundred of the best workmen of the country are employed at these works.

At 2.30 p.m. the guests retired to the adjoining Marquee, where an excellent champagne luncheon was supplied, the able caterer being the manager of the well-known Borsen-Halle.

Mr Silveira, President of the Centro Industrial, in an able and pithy speech, complimented the firm on the satisfactory results of the day.

EDITOR'S TABLE.

'Smiling Spring her earliest visit paid' yesterday. The Village of the Plain looked lovelier than usual and, naturally, considered the day its own. In town top-coats were discarded by many, and one plethoric subscriber declared in our office that it was quite a 'white waistcoat day'. So it was: but Saint Rose has not had her say yet.

Telegrams from Paris announce that the Princess Imperial of Brazil has been safely delivered of a Prince and is doing well.

The trial of the Schwartz safe at Barracas yesterday was a complete success. The safe became red hot, yet the notes and Bonds inside were not even crisped. The Champagne was 'opiparo.' We give a full description in another column.

In reference to the Saá case the *Nacional* quotes a case in the House of Representatives at Washington where a man named Pat Woods, alias Pat Dooley (a Circassian we believe) was ordered into the custody of the Sergeant at Arms for assaulting Senator Porter in Richmond. Poor Pat got three months.

The new Bishops Bill passed the National Chamber of Deputies on Tuesday. Dean Dillon will be the new Bishop of the province of B. Aires, and Deputy Canon Lugones of Santiago del Estero.

The Saa affair has wound up with the condemnation of the accused to imprisonment till the end of this session, which means three months 'chokey.' It is too much for the offence.

The horrible murder of Mr Furtado de Castro at Arrecifes, on Saturday last, has fairly frightened society, as showing the shocking state of lawlessness which prevails in the very heart of the most populated camp districts. Mr F. Castro started from Arrecifes to go to his estancia: he was on horseback riding a little in advance of a carriage in which were his daughters and some young lady friends. When about two leagues from the town two gauchos rode up to Mr Castro and demanded his money or his life, and as he hesitated, in the confusion of the moment, one of the miscreants raised a blunderbuss and literally riddled him, the unfortunate gentleman falling dead from his horse. The horses of the carriage, terrified at the report, bolted and upset it into a ditch, the occupants being severely hurt. Twenty arrests have been made, but the assassins are still at large. This terrible crime may be set down to the long, long account of the 'Impunity for Murder' which unfortunately prevails in this country. Until we shoot assassins, as the Law provides, they will most certainly continue to shoot us.

We are requested to announce that the Rev. J. Kent Stone will celebrate Mass and preach on Sunday next, at 9 o'clock a.m., in the chapel of the Irish Convent, Calle Rio Bamba.

We would feel obliged for any information about two young men—one named—Niell, the other Everard Michael Power—who came out here some years ago. The first is believed to be in the Banda Oriental; the latter came out in 1864, to go into sheepfarming, but his friends at home have heard nothing of him since 1873.

The *Razon* of Tucuman publishes very bad news indeed. Our colleague declares that the unprecedented frosts have destroyed the sugar cane plantations, and that the output of sugar and 'aguardiente' this year will not be one half of last year's. The worst of it is that the frost-bitten canes are of no use whatever for sowing, and this will tell terribly next year. The large contracts made by the mills for cane are being rescinded on all sides, and general distress is the result. For fifty years such frosts have not been experienced in the Interior.

We commend our Supplement to our readers to-day. It will explain the recent panic on the Paris Bourse. The speculation here in Nat. Banks is a mere 'fleabite' to what is going on in France, where even the ladies are up to their pretty ears in 'specs' of all kinds, and in ballrooms the talk is no longer about the weather, the opera, and the last new novel, but about gas, railway and bank shares, Credit Fonciers and Rentes, how much paid up, and other 'Ours et Taureaux' lingo. We have not got to this here yet, but in la Belle France it is nothing new to see ladies dabbling in stocks; their favourite bargains are in 'options,' to give scope for their sex's tendency to change of mind.

The wool floor appears awfully shaky. A lot from Arenales was sold yesterday at fifty; last year the same kind of wool from the same estancia fetched 105!!

The death, at Mercedes, of Dr Saturnino Pineda is announced. In 1836 the deceased physician was appointed Vaccination Agent in the Argentine Republic of the Jenner Society of London, and had held the post ever since. He was the only Argentine member of the Society. Death has vaccinated the veteran at last. Peace to his ashes.

Chile appears to be settling up all her foreign questions, preparatory, we apprehend, to settling for good in the choicest parts of Peru. The news from Valparaiso is that a definite Treaty of peace has been signed between Chile and Spain, and that King Alfonso will at once send a Minister to Santiago.

The Rev. James W. Fleming will preach at the Flores Chapel of Ease on Sunday next at 3.30 p.m.

We have been favoured with a copy of Dr Francisco Cestino's interesting pamphlet on Ensenada as a port and the future capital of the province. We have barely had time to glance at it, but will give it a more careful perusal in a day or two and report. The pamphlet is dedicated to the Argentine Press and to the memory of the late Mr William Wheelwright.

A new interest has been given to the Irish Land Bill by the difficulty that has arisen between the Peers and Commons. Bets are already being made as to the result. We are inclined to back the Commons, and hope the Bill wont come to the ground between the two stools. We feel for both Houses missing the moors on the Feast of St. Grouse this year.

There was a large attendance at the Swiss Rifle Shooting at Belgrano on Sunday. The prizes were very nice and well competed for. On Monday the Gun Club had a royal set-to, 500 pigeons being provided for the occasion.

We perceive, in an advertizement in another column, that Messrs. Kelly & Sons, of Calle Suipacha, the well-known drug firm, have opened two branch houses, one in Calle Alsina, the other in Calle Defensa.

The Villarino has arrived from Montevideo all right again and as tight as a drum. She will sail on Tuesday next for the South and take the Welsh colonists to Chubut.

The next fine 'fiesta' in fashionable life will be a grand ball given by Consul and Mrs. Baker, to which only unmarried guests will be invited. After Mrs. Baker's ball will come another at the Club Progreso.

We are glad to hear that Rear Admiral Cordero has completely recovered from his recent attack of illness and is again on duty in the Navy Department.

We beg to congratulate Mons. Wagner, the popular French Consular agent here, on his promotion to the rank of Consul of the first class. The advancement is well deserved.

An old negro named Anthony died yesterday aged 120. Julius Cæsar!

ON 'CHANGE.

August 17, 1881.

Patacons	25.65
Cedulas A	99½
National Bank Shares	110
Italian Bank Shares	130
Old Gas Co. Shares	2100

There was a very changed appearance in the market to-day. Gold much offered and declining. Cedulas strong, many buyers, and National Bank Shares hard and rising. The gold market has very much flattened since the half month's liquidation, and it is not likely that the market will experience any strong demand before 24th or 25th. Gold opened and closed at 25.65 for cash; 52,100 sold. For Saturday 60,000 at 25.60; for end of month 310,000 at 25.60, and on long dates 250,000 sold at 25.55-50. Total gold sales 672,100.

Cedulas ruled very firm, and if the stock sold short for the end of the month is called for, the bears will again experience a corner. Prices opened and closed firm at 99½ cash; 19,600 sold. For the end of the month 30,000 sold at 99½, and on long dates 80,000 sold at 98¾-99. Total sales 129,600.

National Bank Shares seem to have turned the corner and are again looking upwards. The news at the ring was that the money to carry the stock at the end of the month has been secured, and that people who have sold shares had better make preparation to deliver same, as the stock will be called for. As for the money, it was a mere question of interest, and as a rise of 2 or 3 per cent covers every possible charge for interest, speculators care little what rate they pay so long as they secure the money. 432 shares were sold cash, opening at 109 and closing at 110. For end of month 3,780 shares sold, opening at 109, dropping to 108½ and closing at 110½. For September 2,650 shares sold, opening at 106 and closing at 108. Total sales, 6,800. The present rise in this stock will render the month's liquidation still more difficult; many think that the share market has hardened at these prices, and some of the great speculators are now making a market, and it seems most probable, however, next week will try the stock, and if the money is found to pay for the shares, then we may look for a full resumption of former prices.

Some beautiful gold and silver coins just received from the Mint were handed yesterday to President Roca; the coins are exquisitely stamped.

The *Nacional* was in error about our long interview with the Minister of the Interior, the subject was Welsh colonists, and not docks. To-morrow another meeting on the same subject will be held at the Government House.

The Villarino came up yesterday from Montevideo, and is now in the Boca; she will leave on Monday, and take the 90 Welshmen at present in town.

To day we had an interview with the first of Dean Dillon's Irish families, arrived per Archimedes, a farmer from the County Wicklow. We think the Dean had better wait a little until Government assign the lands for these emigrants, otherwise we may find fresh difficulties; at present the settlement of so many Welshmen gives plenty to do.

At the South market to-day a lot of wool from Arenales, sold at 50 m|c per ar., last year the same wool sold for 105.

There is much discussion on 'Change about our German correspondent's letters. Some think he writes pure gospel, whilst others regard his views as too unsound to be published.

The sale of 3,000 horned cattle in the North, fat and in good condition, brought down from Rosario at 250 m|c is reported; also 3,500 head sold at Rojas some days ago at 250 m|c for a new estancia 9 de Julio; also a point of cattle at Tres Arroyos bought for Rio Negro at 240, and a flock of sheep at Patagones at 30 m|c. Sheep are very freely offered and prices look declining. Many think the present price of cattle also unmaintainable, as large troops of cattle are known to be on the way down from the Provinces, and several thousand head of cattle 'al corte' are being passed over from Corrientes to Sta. Fe. Still for cattle there is always good demand, owing to the number of new estancias being started.

The sales at the ring were—

For cash 52,100 25.65
For Aug. 18th 5,000 25.65
For August 20th 80,000 25.60

For Oct. 31st 80,000 25.50
For Nov. 30th 50,000 25.50
For Dec. 31st 40,000 25.55-50
Sales, 362,100.

Cedulas—

For cash A 19,600 99½
For Aug. 31st A 30,000 99½
For Sept. 30th A 15,000 98¾-99

Banco de Italia Shares—

For cash 10 shares at 30 prem.

There was a tremendous let-up in Bank Shares at afterhours, and prices jumped from 111 to 114, at which first price a well known English broker bought, and at the latter sold. Such was the great hub-bub and excitement in the room that whilst in one corner sales were made at 112 in another corner the price was 113, whilst in the centre of the room they were paying 114, but all this reaction and push in this most speculative of all our stocks was due to the news that the Italians were coming and had taken up money to-day to carry every share in the market. Some of the leading money brokers decline to take orders from their clients to buy or sell shares except for cash. And we never before witnessed such extraordinary excitement in any stock in this market. At half past 4 o'clock the market calmed somewhat after the sale of fully 5,000 shares, which has completely upset every calculation as to the month's liquidation. Prices closed at 112½ sellers.

In gold and Cedulas not a particle of business done at afterhours; the whole attention of the Bolsa being centred on Bank Shares.

Mr Rich. Browne, who has arrived from Gualeguay, was welcomed on 'Change; he reports 4 ships there loading beef, and the Government engineer taken the Port Ruiz railway in hand and completely refitting it. The meat factory up there is busy, killing capones and canning the mutton.

Don Julio Tesi, Italian Vice Consul in Rosario, has arrived in Umberto I.

To-morrow (Thursday) Messrs Baltar and Quesada will sell some splendid rams from Mr Urioste's famed estancia.

Mr John Hughes of Rojas was welcomed on Change, he reports that rain is wanted in the North camps.

At the Plaza Once to-day very few arrivals and little done, 700 ar. at 68, and 500 at 77, sheepskins down and little doing.

The private banks to-day at last began discounting in gold at 8 per cent, paper discount same rate. The Prov. Bank discounted 2½ millions. The Nat. Bank 7½ millions currency.

The following sales have been realised—

In Pergamino a flour mill with all its accessories for 211,000 m|c. Buyer Don Pio Aguirre. A piece of camp comprised of 120 squares for 124,000 m|c; buyer Sr. Acevedo. A flock of 1,400 sheep for 28 m|c each; buyer Sr. Negre.

300 fat bullocks have arrived from San Juan. These animals are expected to fetch very high prices.

Mr Eduardo Olivera's rams, sold by Messrs. Bullrich & Co., realised the following prices—30 rams averaged from 3,000 to 14,000 m|c, this price includes 4 superior animals sold respectively for 7,000, 8,100, 13,000 and 14,500 m|c. Total, 149,100 m|c. Average price, 4,970 m|c.

Ten Lincoln rams from Messrs Escurra at 850 m|c each.

Ten 1 year old Rambouillet rams from Don Domingo Frias—1 sold for 1,000 m|c and 9 for 900 m|c each.

Eight 1 year old Rambouillet rams from Don F Escobar—2 for 750 m|c each and the rest at 600 m|c each.

4,000 head of cattle have been sold in the North, placed on the estancia at 26o m|c, 15 per cent steers and all calves under one month to be given into the bargain. These cows come from the Provinces.

2,000 head cattle, mestizo, with 10 o|o steers in very good condition, for 280 m|c

Numerous buyers for cattle 'al corte' and also many for picked animals of from 2 to 2½ years, but the owners of the latter, as a rule, are not inclined to sell.

Parties just arrived in town, after inspecting the camps situated between Bahia Blanca, Guanaini, Carhue, Trenquelauquen and Azul, state that the progress in those parts is simply marvellous; they had to ride alongside wire fences all the road from Bahia Blanca to Azul.

The Nat. Bank discounted yesterday the sum of 100,000 pats.

From Brazil we have the following important advices:—

"The Lion Insurance Co., formerly the Anglo-French, of London, has received permission to operate in the Empire.

"A counterfeit of the green 200$ note of the Bank of Brazil, 2nd series, has appeared.

"The Brit. barque Standard Bearer, from Swansea for Coquimbo, was abandoned on the 5th of June 200 miles from Rio de Janeiro. The crew were shortly afterwards received by the Brit. barque Fredburg and taken to Port Stanley, whence all but four were brought to Montevideo July 10th by the schooner Fairy.

"The str. Fortuna has arrived in the River Plate. It is said Capt. Jones has offered to raise for $f.3,000 all the sunken vessels in the Plate.

"The torpedo launch Nedino, abandoned some months ago, on the voyage to the River Plate, and sold at Aracaty, has been brought to Pernambuco, and now hoists the Brazilian flag. It is built of iron and looks, with her convex iron deck, something like a whale.

"The ceremony of closing up the bottom of the gunboat Primeiro de Morgo was performed on the 16th. This vessel is the first of mixed construction built in Brazil. She is expected to have a speed of 10½ to 11 miles, and will carry 7 32-pound Whitworths.

"The Germ. barque Abraham, from Havre for Rio Grande do Sul, was reported lost on the bar of Aracaty on the 5th, but the cargo was being got out in a damaged state.

"Three seamen and two mates of the Dutch ship Ablasserdam, lost on the Rio Grande do Norte coast in June, arrived at Pernambuco.

"A meeting of the shareholders of the Banco do Commercio was held on the 29th ultimo to consider the reports for the banking year 1880|81.

"The Directors report lamented the return of £3,000 of bills, due to the suspension of an old house here having a branch in Manchester, but expected that the actual loss will be small. They considered that the 3,000:000$ of paid up capital is now insufficient for the business and recommended the issue of the 2nd series of 15,000$ shares.

"Beneath the false bottom of a trunk belonging to Francesco Calabria, a passenger by the French packet Equateur, 185 pieces of jewelry, chiefly gold, were found by the custom searchers. With the jewelry was a scrap of an Italian newspaper on which the only legible words were:—"Poor Manetti! fate was malign to him."

"The S. Francisco light, at the mouth of the S. Francisco, has been suspended, the tower threatening to fall. A white light, however, is shown from the Atalaia at the bar and is visible 16 miles off from all points."

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatre, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como la de cimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad, aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

A cada comprador se le dara un boleto con un numero de orden, y en el cual se fijara un termino para pedir la ubicacion, de manera que el primera que compre, sea el primero que elija y asi sucesivamente.

Siendo la venta dentro del territorio de Santiago, ningun otro gobierno iniciara protesta alguna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y dedo hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

Procederemos a la venta en remate publico a la mas alta postura y dinero de contado, por orden y cuenta de los Srs Ocampo Hermanos, un selecto lote de Moruecos Negretes sangre puro.

Repetiremes aqui algunos datos que hemos publicado en anos anteriores, sobre el origen de estas cabanas por considerarlos importantes para los senores ovejeros amantes a esta bellisima raza.

La cabaña que es hoy propiedad de los Srs. Ocampo, fue adquirida por esos senores en el ano 1875 cuando fue vendido por nosotros en remate publico por cuenta y orden de los Srs. Eduardo Olivera y hermanos, que entonces eran considerados como los mejores criadores en la raza Negrete, habiendo fundado la cabana en el ano 1868 con animales elegidos personalmente por el Sr Don Eduardo Olivera en sus viajes por Alemania, observando el sistema mas perfecto de aparejamiento, teniendo su orijen de los rebanos de Hochitz (Austria) que como se sabe es la base del verdadero Negrete. Mas tarde en 1866 introdujo bellisimos animales de la misma raza, procedentes de la cabana Modenzin, cuya majada ha sido reputada como la mas perfecta y bella, por criadores afamados.

Los rindes de los carneros padres de esta cabana son de 24 a 28 lib., siendo el de las ovejas de 14 hasta 20 lib. por vellon, rinde extraordinario y que solamente se obtiene a fuerza de escrupulosidad que los Srs Ocampo tienen para el aparejamiento de su majada, siguiendo el mismo sistema establecido por su fundador y como es consiguiente renovando la sangre introduciendo los mejores carneros padres de la misma raza que han pedido encontrar en Alemania.

Son pues de este origin los 20 carneros que ofrecemos en venta cuya edad es de 16 a 20 meses de edad, con lana de de diez meses, habiendo entre ellos animales de alta reserva.

Los carneros podran examinarse en nuestra casa Alsina 78, cinco dias antes del remate.

Algunos ce ellos hijos del carnero Thiers, importado por los Senores Amadeo, de la cabana Imperial y uno de los mejores animales que han salido de aquel establecimiento para nuestro pais, segun datos directos que tenemos de la cabana.

En *El Standard* del 24 de Setiembre del ano pasado se encuentran datos interesantes sobre este esplendido reproductor.

La cabana de los Srs Amadeo e hijos fue fundada hace mas de 23 anos con animales elegidos en Francia y para que los Senores estancieros, deseosos de obtener animales de buen y puro origin, pueden formarse una idea, damos aqui el detalle de las varias espediciones que han sido hechas desde Ensaopa por cuenta de la cabana Laguna del Trigo.

Origin de la cabaña de los Sres Amadeo

1878—Obsequio del mismo Sr Duportal y tambien de su cabana de San Vicente, un animal.

1879—Elegido y pedido por el Sr D Enriques Meyer, un notable carnero, que sirvio mucho tiempo de reproductor en la famosa cabana Rambouillet, animal que no teniaprecio y solo se vendio cuando dos hijos suyos pudieron reemplazarlo, vendios por el Belgrano, por conducto de la casa de los Srs Dilleman y Ca, un animal.

Total recibidos 84 Rambouillet.

Como los Srs Amadeo e hijo nos dicen que oreen pues [illegible] deber exhibir los titulos que tienen para ser considerados como poseedores de una cabana verdaderamente de sangre pura Rambouillet hemos publicado los datos que anteceden y que nos parecen titulos sobrados para elevarno de todo otro elogio.

Ademas los Srs estancieros los veran 5 dias antes de remate y juzgaran si tienen o no las condiciones del puro merino frances.

El 20 del corriente estaran en nuestra casa Alsina 78.

FRANCE.

The Medal of Honour for Sculpture has been awarded to M. Allar for his 'Mort d'Alceste.'

A collision took place last night between two of the little steamers that ply on the Seine. The shock was so violent that one of the passengers had his leg fractured and another fell into the river, but was fortunately pulled out again immediately. One of the boats showing a big hole in its side, through which water was pouring in, its passengers were speedily transferred to the other, and a few minutes afterwards the injured boat sank.

There is no denying the fact that the wealthier classes in France, not only what is here called 'society,' or the 'upper ten,' but the 'bourgeoisie,' take daily less interest in politics. Government is in the hands of the masses; its representative men are not to the taste of 'society,' and thus politics are left to those who make them their special business. The minority, who from tradition, conviction, or habit cling to the Bourbon, Orleans, or Napoleonic dynasty, find their case hopeless for the present, and the struggle is carried on by few. The attention of most of them is elsewhere, and they give vent to their passions on the Bourse, not at the poll. The Bourse, indeed, is a word in everybody's mouth. It is the chief subject of conversation in the clubs, the cafes, even at the dinner table. Everybody has more or less taken to gambling. From the most Conservative landowner to the commonest porter, everybody seems drawn into the whirlpool of speculation. I had the honour some days ago to dine at the side of a lady whom I had so far only heard of as a leader of taste and fashion, and this in the most legitimate sense of the word. I was amazed when she spoke to me about the Stock Market in the most initiated manner, knowing a great deal more about it than I do myself. With that facility and communicativeness which is a trait of French character, she told me she had made a great deal of money, and that several of her friends had been quite as fortunate as herself. I could not refrain from expressing surprise at this, as I knew she was the possessor of a very large fortune. She replied that, in her opinion, it was quite as natural and legitimate for a woman to try and administer her inheritance as for a man, and that, after all, she only did what everybody else was doing. I asked her to give me the secret of her success. 'It is the simplest thing in the world,' said she, laughing at my ignorance, 'buy.' No doubt this advice given two years ago and steadily followed was the right one, and all who bought, or nearly all, have made money. The increase in public wealth has been enormous. French Rentes issued after the war at 82f. stand now at 120f. French railway shares show still greater improvement. A year ago French Northern shares were quoted at 1,640f. per share of 500f.; they are now at 2,160., and all others bear the same comparison. Bank of France shares, which could be bought a year ago at 3,400f., sell now at 5,900f.; Crédit Foncier shares have risen 50 per cent within the last year. But it is not only in France that the value of things has doubled. The French public had under the Empire, and has ever since the war invested largely abroad. Hundreds of millions of foreign stocks and shares have been held in this country. A large part of the Italian Debt is even now in the hands of the French public, its quotation having risen from 70 to 90f. The same is the case with Spanish, Egyptian, and others. A more remarkable instance, perhaps, has been the investment in Spanish rail ways. Here there was positive loss, seeing that for many years they paid no interest. Slowly they have all worked up to prosperity, and the patient holder has not only recouped his capital, but sees his shares at a large premium. There have, however, been new creations which, legitimate in themselves, deserve the success they have met with among the public. It must not be forgotten that the Limited Liability Act, which leaves free scope to the association of capital, is of comparatively recent date, and that France has been much slower than England to profit by it. I do not believe that I am making a broad guess when I say that for ten large companies in England we have one in France. It is the same with banks. Indeed, the principle of banking is as yet little understood in France, and, as I have had occasion to explain before, there are only one or two banks that work according to the principles of English banking. The other banks are in reality Credits Mobiliers—that is to say, they combine financing with the receipt of deposits, discounting, and other branches of business.

Under the impulse of a general rise in securities, many legitimate companies have been started and will prosper, I have no doubt, whatever may be the issue of the present mania. I will state a few examples. The environs of Paris contain the most renowned limekilns in the world. A large number of them have formed themselves into a company, with a capital of nearly £1,000,000 sterling. They produce 500,000 sacks of lime a day and numerous by-products. Now, here is a company which, of course, must prosper, if properly conducted, and providing building does not stop. In a similar way the famous mills of D'Arblay and Berenger have been turned into a company. They produce 1,000 sacks of flour a day, the seventh part of the consumption of Paris. Here, again, is an industry which, having been created a century ago, will continue to do well if properly conducted. I could state many other cases. It is clear that such creations do not take money out of the country, or in any other way influence the financial status of the country. They simply transfer an interest from one party to another. I attribute it to this circumstance—that, on the whole, the commercial balance-sheet of France has not been affected by this movement. Many of the securities held in France are marketable also in other countries, and thus any momentary pressure of money can be easily alleviated. But while much that is legitimate and durable has been created, there is no doubt that the gambling element has had of late a large part in general business, the end of which must be loss and defeat.

(To be concluded.)

THE EAST ARGENTINE RAILWAY COMPANY.

The following is from the Report of the Directors, to be presented at the meeting of the East Argentine Railway Company, Limited, on Friday, the 22nd of July:—

"In consequence of the non-receipt of the final accounts from the Concordia Office to 31st of December 1880, the Directors are unable to present the usual statements of capital and revenue, but they will be isssued as soon as possible after the arrival of the Concordia Accounts. The meeting has been convened at the usual period, although the accounts are not ready, in order that there may be no delay in the declaration and payment of a dividend. Advices received from the general manager, Mr. Smart, show that the profit on the working for the year 1880 amounted to about £8,000, as against a net profit of £1,201 in 1879. On the 23rd of November last the short extension of 5 kilometres from Monte Caseros to the Ceibo Creek was opened, and the company's steamer, El Mensajero, made its first trip. The expectations of the directors, that these auxiliaries to the traffic would increase the earnings of the line, have been fulfilled, although there has been scarcely sufficient time to form an opinion of what the ultimate increase of the traffic will be. The general manager, Mr. Smart, reports that the company's steamer was able to run at a period of the year when the river was low and when navigation was impossible for other steamers on the Upper Uruguay. Since the extraordinary general meeting, held on January 5th, the Directors have been actively engaged in urging upon the Argentine Government a settlement of the company's claim, and in consequence of telegraphic advices from Mr. Thompson, the resident director at Buenos Aires, that a sum of 527,040 dollars had been paid on account of the guarantee to the end of 1879 the board withdrew the protests which, in conformity with the resolutions of that meeting, they had lodged in London and Paris against the quotation of the new Argentine Loan. A remittance of £50,000 has just been received in London, which enables the board to pay a dividend of 30s. per share, and the Directors propose on the receipt of the remainder to make a further distribution. A dividend of 10s. per share was paid on the 2nd of May last, so that the shareholders will have received, in the current year, £2 per share."
